

# Bleeding Control Kit

Item #FA2-91136-EA

## PRODUCT DETAILS:

This premium bleeding control kit contains vital tools for treating limb and torso wounds. The included windlass tourniquet and hemostatic gauze pad empower bystanders with the lifesaving tools to help save a life in the critical first minutes of a bleeding emergency. The red fabric pouch is easily identifiable, lightweight, and mobile for efficient travel to the trauma site. The Right Response kit is ideal as a supplement to a first aid kit and for high-risk environments such as workshops, construction sites, and remote worksites.
